

Hoboken Green Roof & Wall Seminar

Presented By:

STEVENS
INSTITUTE of TECHNOLOGY
THE INNOVATION UNIVERSITY®

Green Roofs for Healthy Cities and Stevens Institute of Technology, welcome you to the Hoboken Green Roof and Wall Seminar on June 5th at Stevens Institute of Technology.

Hoboken, like many jurisdictions, faces mounting pressure on grey infrastructure as storms become more frequent and intense. Hoboken can combat the impact of stormwater on existing infrastructure with the implementation green roofs and walls.

This one day event will feature industry experts and local policy and research leaders presenting design best practices, the latest research findings, exceptional projects, and policies on green roofs. The Seminar will also feature a trade show for local green roof and wall companies, interactive panel discussions and workshops to help develop policy locally, and an opportunity to tour the new **Stevens Green Roof Testing Facility**.

Why attend?

- Discuss green roof and wall policy in the tri-state area.
- Learn about green roof design best practices.
- Approved for 7.0 CEUS from AIA, ASLA, and GRP.
- See how to make the business case for green roofs and walls.

Thank you to our event sponsors
